

Directions for Project Final Work Day

Bottom Line: Your project (VoiceThread/iMovie) must be COMPLETE and shared with me by the end of class.

1. ____ Finalize your script including images and last minute edits. Do not spend a lot of time on this; you should be done already.
2. ____ Follow the orange directions sheet on setting up a VoiceThread (only one person in the group should set up the account - the rest in the group will log in using that email account and password).
3. ____ See **me** to sign out to a quiet place to record. Use the orange direction sheet for info. on how to record in VoiceThread. When you are done recording, come back to the classroom.
4. ____ Share your VoiceThread with me following these directions:

Step 1: In the edit screen on your VoiceThread choose **Publishing Options** (on bottom menu bar) and check **Allow anyone to View** *and* **Allow anyone to Comment**. Click **Save**.

Step 2: When you view the last slide of your VoiceThread, a screen like the one below should appear. Choose the option "Send in an email" and type in my name (amy_sanders@yarmouthschools.org). Send it to me!
